Statistics for MA Psychology

One Day Workshop (32nd Ed.)
@ Delhi

Specially for MAPC IGNOU Students

Statistics

Statistics is one of most important subject in Psychology. It is not only vital to clear this subject (as the project in 2nd year project will start after passing this subject only) but it is also utmost significant to have knowledge of statistics for a successful career as psychologist.

Hence, it is not only about clearing the Statistics paper but one should also always look for understanding all the important concepts of Statistics

Customize Content

All previous year question papers and current assignment of MAPC IGNOU were analyzed judiciously before deciding the content of this workshop.

The content of this workshop will be delivered in the lay man's language so that everyone can understand it clearly and can -deal with their assignment and exam with full understanding and confidence.

What does it include?

Theory

 - Chi-square test

Study Material (Kit) will be provided for this workshop

FAQs

1. Is it possible to finish all the topics in a day?

Yes.. Of course. 31 workshops of similar kind were already conducted for Hyderabad, Mumbai, Bangalore and Pune MAPC students and numbers of students have already been benefitted from the same

2. Can I clear my statistics paper after attaining this workshop?

Yes.. provided you should practice the numerical after attending the workshop

3. What if, if I have any doubts while studying after this workshop?

This workshop is not only ONE DAY affair. You can clarify all your doubts till your exam

4. Can I pass my Statistics exam by doing theory only?

Yes.. you can easily pass statistics exam by doing theory only and skipping all numerical and vice versa

Effective use of Calculator

For statistics exam, use of Simple Calculator (with square root function) is allowed.

In this workshop, the inputs will be given on effective use of calculator in order to be accurate and save the precious time in the exam.
