MOST IMP

IGNOU
MAPC

Please make sure that you are taking at
least

2 VARIABLES

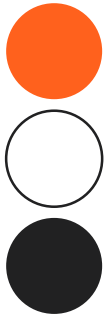

For your research project

INTRODUCTION

IGNOU
MAPC

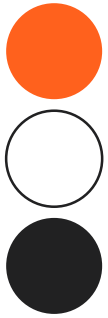

The main purpose of the introduction is to offer the necessary background or context for your research problem to orient the readers

INTRODUCTION

IGNOU
MAPC

By the end of the Introduction the reader should have a very good idea of what the central issue of your synopsis will be

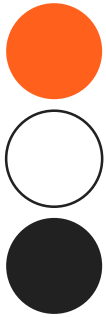

LITERATURE REVIEW

IGNOU
MAPC

Discuss the literature
(5-6 research articles)
related to your proposed study

**It ensures that you are not
“reinventing the wheel”**

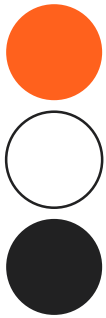

REMEMBER

IGNOU
MAPC

Introduction discusses the problem

**Review of Literature should
concentrate on solutions**

Those that exist and are still required

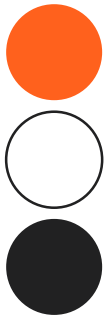

SIGNIFICANCE

IGNOU
MAPC

Explain why **your research work** is
worth performing

Show the importance of the topic by
offering something of practical or
research significance

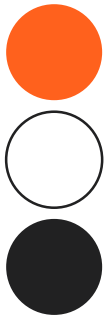

METHODOLOGY

IGNOU
MAPC

You should now tell the reader, how
you would resolve your research
problem

MUST BE IN FUTURE TENSE ONLY

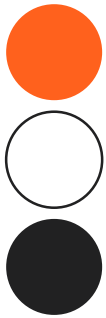

OBJECTIVES

IGNOU
MAPC

Identified on the basis of the
problem analysis

Focus on concepts and problems
mentioned in the problem analysis

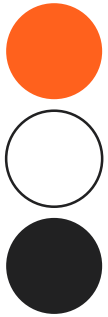

HYPOTHESIS

IGNOU
MAPC

Predictions of the outcomes from the
study

Ideally, numbers of

HYPOTHESIS = OBJECTIVES

SAMPLE

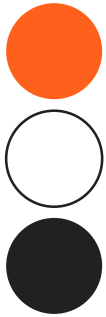

IGNOU
MAPC

Minimum Sample size required = 60

But it recommended to go for at least

80 - 100

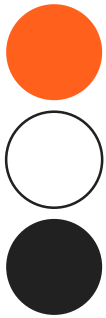

Samples for your project

QUESTIONNAIRE

IGNOU
MAPC

Use only **STANDARDIZED** Inventory
Mentioned **Reliability & Validity**
Don't forget to discuss **SCORING**
& **NEGATIVE** Questions, if any

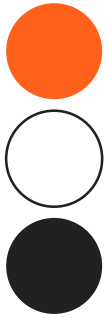

PROCEDURE

IGNOU
MAPC
